

## What's new in prostate cancer research?

**Find out at the APCRC - Q Seminar Series 201**

**Dr Vasundara Venkateswaran**

Associate Professor, Department of Surgery,  
University of Toronto

Division of Urology, Sunnybrook Health Sciences Centre,  
Toronto, Ontario, Canada

*"Diet, Lifestyle and Prostate Cancer: Mechanisms of action and implications  
for chemoprevention."*

After completing her PhD at the University of Madras (UM), and research training in the USA, Dr Vasundara Venkateswaran worked as Assistant Professor and Head of Department, Biochemistry, UM. She ran the Prostate Cancer Research Laboratory at Sunnybrook and later served as Assistant Professor, Department of Surgery, University of Toronto, where she established a major initiative in the study of cellular effects of micronutrient research in prostate cancer. She was awarded peer-reviewed grant support from CPCRI, NCIC, Prostate Cancer Canada and CIHR, and collaborates with investigators throughout North America and Toronto.

**Dr Jennifer Gunter**

Research Fellow, Australian Prostate Cancer Research Centre QLD  
Institute of Health and Biomedical Innovation, QUT

*"How does metabolic dysfunction caused by androgen deprivation contribute to prostate cancer  
progression?"*

**Monday October 10th**  
**Russell Strong Auditorium**

Main Building, Princess Alexandra Hospital

Refreshments: from 4.30pm

Presentations: 5pm-6pm

Networking: 6pm-6:30pm
